Master's Programme

THE MASTER IN STATISTICS

focuses on data analysis, methodological problem-solving in a range of disciplines, various types of statistics software or mathematical statistics. The programme is open not only to experts who wish to improve their theoretical skills in statistical research, but also to non-experts who wish to develop their data analysis skills in an area of specialisation acquired at the Bachelor level.

STUDY PROGRAMME

3 semesters (max. 5 semesters) | 90 ECTS credits

Required courses

33 credits

- Generalised Linear and Additive Models
- Mixed Linear Models
- Multivariate Analysis
- Sampling Techniques
- Analytics Consulting
- Time Series

Electives

27 credits

- Advanced statistical inference
- Advanced Topics in Survey Methods
- Discrete Time Asset Pricing
- Econometrics
- Experimental Design: Theory and Practice
- Financial Econometrics
- Introduction to Biostatistics
- Invited Lectures in Statistics
- Machine Learning
- Model Selection in High Dimensions
- Numerical Optimization and Simulation
- Policy and Program Evaluation: Statistical and Econometric Tools
- Selected Topics in Statistics
- Stochastic Processes in Finance
- Teaching Statistics

+ 10 possible courses outside the faculty

Master Thesis

30 credits

PROFESSIONAL PROSPECTS

The Master of Science in Statistics opens doors to opportunities in various industries: in agroliminaire industry, international organizations, in (cantonal and federal) statistics offices, in financial companies, biostatistics (in the pharmaceutical industry) and in many other areas. Finally, the continuation of studies with a doctorate is also an option available to students who have completed the master.

UNIVERSITY TAXES

500 CHF / semester

REGISTRATION

Deadline: 28 February 2020
